

The Lomond Press

VOL. 3 NO. 47

LOMOND, ALBERTA, FRIDAY, JUNE 27, 1919

\$1.00 PER YEAR.

BASE BALL

Those who witnessed the ball game at Enchant will bear witness that it was the best game of the season, even though our boys did lose by a score of 12-8. With the exception of the sixth innings, when the boys blew in seven runs, Lomond played a very steady game. Ward and Thompson did the pitching.

Lomond.	Enchant.
C. Thompson.....	Hubert
Cap Blake.....	Davis
Kyllingsted.....	Shand
Chapman.....	Burns
Barber.....	Art Howey
E. Thompson.....	Burns
Warner.....	Speaker
Claude Blake.....	Aug. Howey
Ward.....	Martin

Retlaw won from Travers yesterday, playing Noble and Green of Turrin and Stone of Lethbridge (on the Lomond team last year).

Lomond will make a try for the Enchant money on the 1st., and will play at Retlaw on the 3rd.

The Lomond juveniles journeyed to Yetwood on Sunday and went down to defeat. Yetwood is playing a return game here this afternoon.

And the boys have uniforms of their own, which look pretty nifty too.

The Old Fossils have issued a challenge to the standard team, handing in the following line-up:

Pitcher, Mike Driscoll.
Catcher, Watson Ainlay.
1st. base, O. P. Stewart.
2nd. base, Dad Lynk.
3rd. base, Dad Bannen.
Shortstop, Dad Rickett.
Left field, Bill Manning.
Center field, John Delaney.
Right field, Eli Blake.
Spare man, L. M. Swain.

It is expressly stipulated that Bobby Harper shall umpire the game.

Travers Sports Day, July 17th.

Travers is advertising for a big day of sports to be pulled off on Thursday, July 17th. A purse of \$100 is being put up for the base ball tournament. A complete program of events will be published later.

I.O.O.F. Inst'lla't'n

All members of the I.O.O.F. Lodge are reminded that the installation ceremonies will be celebrated on Thursday evening of next week, July 3rd. In addition to this there will be refreshments. While it is not yet definitely ascertainable, it is expected that the Lodge will be visited by the Grand Warden.

LOCALETS

If lighting would have any influence in the matter we would have had a deluge several times this summer, but a storm of unusual consequence passed over just about six o'clock on Saturday afternoon, accompanied by a nice little shower-- but showers are 'ambiguous' right now. W. J. Clements' house was struck, tearing off shingles, splintering rafters, and breaking up plaster. Mrs. Clements was in the cellar at the time and was only momentarily stunned. It was a miracle that a fire did not start in this instance. Ira Donily was working on a car in the Ford Garage and was effected by the electric storm to such an extent that it just about laid him out-- and he doesn't want any electricity no more. Out near Bow City, Henry Hall and Joe Bell were having a friendly chat over the fence when a bolt landed near enough to daze them and start Hall's horses to run away with the disc plow, breaking the plow up pretty badly, out in the Amethyst neighborhood there was quite a damage from hail and several have made claims ranging their psecs at about fifty per cent. As far as the rain was concerned while it was very acceptable, the extreme dryness of the soil counteracted any preceptable advantage.

The meeting of returned men called for the organization of the G.W.V.A. will be held in the Lomond post office building on Saturday evening, June 28th. All returned men are urged to attend as there is important business to be under consideration.

Born, on Monday, June 23rd., to Mr. and Mrs. H. N. Hanna, a daughter.

Mr. and Mrs. R. W. Miller left on Wednesday's train for Chicago, where they intend taking up their residence.

A special meeting of the Council of the Municipal District of Clifton was called on Monday to consider the advisability of continuing the work on the roads as previously planned. Under the circumstances it was decreed that all work would now be dropped excepting the completion of the east road from Lomond, the grading on the south road and the new fills toward Armada, and the two approaches to valley from the west viz; toward Vulcan and Champion. Unless rain relieves the situation with dispatch this will be the extent of the work undertaken this summer.

In most of these cases the ratepayers are being asked to sign over their pay cheques as taxes.

Postmaster McQueen's brother and sister of motored down from Calgary Wednesday making the return trip the same evening.

Everybody is lining up to go to Enchant July 1st. The band is making frantic efforts to round into shape a bunch of new music. The ball boys

hold hopes of making a good showing even though a little bad luck has come their way in the last couple of weeks.

Born, at Kinnondale on Tuesday, June 24th., to Mr. and Mrs. Riley Conklin, a son.

Thos. Farrand was over from Vulcan on Wednesday.

The Bank of Hamilton have a carpenter here installing the fittings for the new institution. By the looks of the weather there is room here for eight or ten mortgage companies to set up shop.

Hill shipped out a car of cattle on Wednesday's train.

Vulcan is holding a celebration on July 1st., with Stavelly, Champion and Vulcan competing for a \$300 base ball

prize. These three towns are all supporting professional ball teams this year.

Frank Vickers went down to the Hat on Wednesday morning.

R. W. Thompson arrived home from Kansas City last week, where he was called by the serious condition of his wife, who went down there for a period of surgical treatment. Mr. Thompson says they are now harvesting in Kansas a wheat crop similar to what Alberta enjoyed in 1915.

A. C. Finley, who had been overseas for the past year and a half returned home on Monday. A. C. looks little the worse for his experience with the Hun, but had the satisfaction of getting into Germany with the army of occupation.

How does your Dollar stand?

Ford

Electric Starting and Lighting

NO car has a better starting and lighting system than that now available to purchasers of Ford Cars. It is a Ford product, built into the motor--

—a positive starter as reliable as the motor itself:

—a powerful lighting system, uniform under all engine speeds.

On the open models—Touring Cars and Runabouts—it is OPTIONAL EQUIPMENT.

On closed cars—Sedans and Coupes—it is STANDARD EQUIPMENT.

On all models the Ford Standard Magneto also provides ignition independent of the batteries.

See the Ford car with this new equipment.

Ford Runabout \$660; Touring \$690
On open models the Electric Starting and Lighting Equipment is \$100 extra.
Coupe \$675; Sedan \$1175 (closed model prices include Electric Starting and Lighting Equipment).
These prices are F. O. B. Ford, Ont. and do not include the War Tax. 115

Five Out of Six Men Destitute at Sixty-Five

Ottawa, Ont., June—Insurance statistics recently verified show that five out of every six men are destitute at 65 years of age. The five didn't save.

Remarking on these figures, Sir Herbert Ames, Chairman of the National War Savings committee, said, "If the quarters burn a hole in your pocket the dollars will slip through that hole. Invest in thrift stamps and your quarters won't get away from you. Make your money earn more money by putting into War Savings Stamps. Be the sixth man—the man who saved.

TOO SHARP FOR A RAZOR

A young fellow wrote a firm in the south of Ireland when was selling razors at shillings each. This is the style of his letter:

"Please send me one of your razors, for which I inclose P.O. for five shillings.

"P. S.—I have forgotten to enclose the five shillings, but no doubt a firm of your standing will send one."

They replied:

"We beg to acknowledge your esteemed order, and have pleasure in sending the razor which we trust you will like.

"P.S.—We have forgotten the razor but no doubt a fellow with your cheek won't need one."

How does your dollar stand?

LOMOND, ALBERTA, JUNE 27, 1919

NOTES

THE PRESS has been requested to define "Bolshevism" and "Soviet." This is a big order, and many a clever man has failed in making delivery on this very same thing. We give you just what we have been able to elucidate from writings and reports available.

"Bolshevism" is a doctrine or code of ethics adopted primarily by a revolutionary political organization in Russia—the Bolsheviks. They interpret this as being representative of the proletariat or the common people. They refuse to countenance people who do not actually labor, and representatives of the capitalistic interests in particular. They maintain that a man should not work for wages, therefore a man who hires labor is an enemy to Bolshevism. The most commendable feature of Bolshevism is the nationalization of lands and natural resources. There are no land owners or real estate booms under Bolshevism; but a man is only allowed to occupy what he as an individual can till without hired help. Bolshevism has gone a step farther and nationalized industry. Here is the problem that has baffled the Bolsheviks. Industry requires skilled labor, brains for direction and management, as well as factory discipline. The

Sister Manning, N.G.
Sister Smith, Secretary.

Bolshevist has refused to recognize any authority, even in industry, save that of the elected "peoples" representative, and unfortunately for Russia, brains are the one thing Bolsheviks don't cater to.

While Bolshevism purports to be a rule by the masses, only about ten per cent of the Russian empire has endorsed it. But this ten per cent happens to have most of the guns and ammunition, as well as the control of the currency and food supplies. So, you see, the people haven't much more to say about their government than in the days of Czar Nick.

The whole thing is but a recoil from rank autocracy. The excesses accompanying the revolution were but outcroppings of individual selfishness and greed, lavishly fed by German gold. The lack of education and the powers of reasoning made the masses an easy prey to these self-appointed agitators and leaders.

Our present social system is built upon the basis of personal achievement. Human nature as we have known it, has required competition to spur her on towards advancement. We have rewarded skill and brains more lavishly than muscle, for the simple reason that brains and skill are the result of individual effort, while muscle is but the reward of nature. Bolshevism undertakes to pool skill, brains and muscle to one common cause. Whether or not our sense of idealism will stand the strain is the unsolved problem. We might refer you to Matthew XXV: 14-30.

Granted that, in the words of the declaration of independence, "all men are created equal," it does not necessarily mean that this status must remain intact throughout the allotted span of existence. There are the vagaries of ambition and indolence to be taken into consideration.

Soviet is merely a term of endearment that the "Bollies" have applied to their pet scheme of government—meaning government by the common people.

Time and education will eradicate the objectional features of Bolshevism in Russia, while the continuation of such scandals as the Davies Packing Co., the Dominion Textiles, the flour milling interests and others, will tend to fan the flames in Canada.

Pat Burns is not worrying over crop conditions in Alberta. Neither would we if we had a cinch on as much good grazing land as he has.

NOTES

While conditions are thoroughly disheartening, and one can hardly blame people for a certain degree of despondency, we can speak from ten years of personal experience and say that it is a poor time to quit. Where can you go under your present circumstances and better yourself? It costs money and time to get established in a new place—and you know that this country has and will again produce good crops. The history of all new countries is beset with similar tribulations, and, as you know, trouble clouds always loom larger when ahead than when behind.

As a sequel to the above, THE PRESS would advocate a compulsory free vocational training system. The state should provide a means whereby educational advantages, at least as far as through our provincial universities, would be available to people of meagre means as well as the rich. There are plenty of people who have children with undeveloped brains, for the only reason that their purse would not carry them

beyond the little red school on the hill.

The big strike has been called off and labor went to work again yesterday, pending an adjustment of its grievances by a special commission to be appointed by the Manitoba government. The settlement is a compromise on behalf of both parties, and at the same time a decisive route to the radical element that was fomenting labor troubles.

When the Hun crews scuttled the surrendered German fleet off Scapa Flow the other day, they did little more than further impress upon the world that the Germans are still Huns. The Hun recognizes no international obligation as sacred, so we are inclined to think that it will take a large standing army to enforce upon them the terms of the peace treaty.

Have you noticed how all the towns are living up to the rules for strictly amateur ball? Nux—

If the C.P.R. wanted to extend this line, right now would be their chance to secure local labor at a reasonable figure.

Taxation of Land According to Value

A Better System than that
of Levying Taxes on an
Acreage Basis.

When a rate of taxation amounting to about \$3. per quarter section was the total tax required to be levied on the lands in the Province for Provincial or Municipal purposes, the fact these taxes were levied on a flat rate of so much per acre, regardless of the value of the land, did not cause any particular complaint, as why it was not a fair basis of taxation, the amount of taxes payable on each quarter was so small that no particular hardship was caused, and the fact a man owning a quarter section of land worth about \$1000 paid as large a tax as a man owning a quarter section worth \$4000 was not given much consideration. As the years went on it was necessary to raise the rate of taxation and to levy additional taxes. With increased taxation, it became very evident the levying of taxes on an acreage basis was not fair. It is admitted that it is impossible to levy taxes on absolutely fair basis, but the increasing of the amount of taxes payable on a quarter section of land made it clear that a system of taxation whereby a quarter sec-

tion worth \$1000 was taxed as high as one worth \$4000 was not just. Under such a system of taxation, rates are not levied according to the ability to pay. At a rate of say 10c per acre, a man with a quarter section worth \$1000 pays \$16 so does the man with the quarter worth \$4000. That is the man with the greatest ability to pay; pays only the same amount of taxes as his poorer neighbor who has land only worth one quarter as much. That is for the purposes of taxation the value of the property owned by the man with the poorer land is rated much higher than its real worth while in the case of the man with the more valuable land will, his property is rated at much less than its worth.

In considering the merits of any system of taxation, the matter must be approached from the standpoint that taxes should be paid according to the ability to pay, and looking at in this way, there does not appear to be any sound argument against levying taxes according to value, rather than on an acreage basis. This principle having been recognized in connection with taxes levied directly or indirectly for the benefit of the Province at large, the different Acts through which the Province derives revenue from taxes on lands were amended at the last session of the Legislature by legislation introduced by the Minister of Municipal Affairs, so that beginning with the year 1920, all taxes levied by the Province, either directly or indirectly, will be levied ac-

cording to the value of the land, and not according to the area. That is all taxes levied on lands outside of organized School Districts under the Educational Tax Act; taxes levied on all lands in the Province under the Supplementary Revenue Act; taxes levied on lands outside of organized Municipal Districts under the Improvement District Act, and taxes levied on lands subject to taxation under the Wild Lands Tax Act, will be levied according to value of the land taxes. The only exception will be the taxation of land leased from the Dominion Government, and in these cases the will still be levied on an acreage basis, but as the rate is so low it does not create any great hardship.

In preparation for this work, all lands outside of organized Municipalities are now being valued under the direction of the Minister of Municipal Affairs and Municipal Districts which are not already levying their taxes according to land values, will be required to value all their lands for the purpose of taxation under the Supplementary Revenue Act next year.

The basis of taxation is the cash value of the land without taking into account any improvements made upon the land by the expenditure of capital or labor. In working out this cash value there are only three things taken into consideration, namely:—

First—the nature of the soil.

Second—The nature of the surface; that is, whether it is broken by ravines, coulees or timber and so on.

Third—The distance of land from a shipping point.

As the comparative will only change under exceptional circumstances, as for example, where a new railroad passes through the locality, and as this is a third and last consideration, it will be noted that there will not be much change for some years. This being the case there will not be much change for a some years. This being the case, provision has been made for a valuation by Municipal Districts only once in every five years, thus reducing the work and expense in connection with the levying of taxes. The first valuation under this scheme will be the valuation in the year 1920, the next in 1925, and so on. Provision has of course been made for the valuation in any year of land which became liable to taxation during that year, so that the fact that the general is only made every five years will not exempt land from taxation which becomes liable to assessment and taxation during any year other than that in which the general is required to be made. Tax notices of course be issued each year.

While a change from an acreage system of taxation to one according to

AUTO LIVERY AND REPAIR WORK

True economy in the operation of a motor car can be
found only in keeping the machine in proper working
order. The learning of this lesson has cost inexper-
ienced motorists a lot of money. Don't you make the
same mistake.—A dollar in time saves many a nine.

Lomond **IRA DONILY**

(continued from previous page)

value cause extra work, matters will soon adjust themselves and there should be no difficulty in administering a system of taxation along those lines. The fairness of taxation according to value will, if the matter is given due consideration appeal to all fair minded people as a better system of taxation than the acreage system which makes the owner of poor land, generally a poor man, pay the same amount of taxes as the owner of good land generally a wealthier man. One of the main objections to taxation of land according to value has arisen from the fact that many landowners are under the impression that if taxes are levied according to value, the owner will have to pay on the value of the land together with the value of the improvements placed upon it by hard labor and expenditure of money. Such however is not the case. All provisions in the laws of the Province in regard to taxation of farm lands, requires the valuation of these lands for taxation purposes to be made on a raw land basis and there is no tax on the increased value of lands because of the improving of these lands by the expenditure of labor or money. That is a man who improves his land by cultivation, building of fences and putting up of buildings is not punished for doing so by having to pay taxes on such improvements. Raw land values being equal, the owner of unimproved land has just as large a tax to pay as the man who improves his farm and if he is making no use of his land, he has, in addition, to pay a Wild Lands Tax.

Industrial Congress Meets in Calgary

It is now definitely announced that Sir Robert Borden will attend and addressed the big industrial congress at Calgary on either August 13th. or 14th. This fact together with the announcement that such men as Henry Ford, Sir Edmund Walker, Joseph Oliver of the Oliver Plow Works, President of the Canadian Pacific, head of the Studebaker Corporation, the Willys-Overland, the International Harvester and other such men are to speak, assures a gathering of tremendous proportion.

The Congress is to be Province wide in nature, including a tour of the Province by special trains, arrangements for which have been made by the Canadian Pacific Railway, and commencing at Medicine Hat on August 11th. The tour includes Lethbridge, Calgary, Edmonton and a trip to the resorts in the Rockies.

Such men as Dr. McLaurin on the University of Saskatchewan, Dr. Gwilliam of Queen's University William

Pearce of the C.P.R. Natural Resources will address the Congress on the resources of the Province of Alberta, while such men as Robert Dollar head of the Dollar Steamship Company of trans-Pacific routes, and Sir Edmund Walker will discuss Pacific and Oriental commerce.

The main and educational sessions are to be held at Calgary, Aug. 13th. and 14th. At Edmonton Premier Stewart and the Government will give a reception. While no effort is being made to attract the masses of the people, all those in any way interested in industrial development will be heartily welcomed to the educational sessions at Calgary, it is announced by the program Committee. Congress headquarters have been opened in the Palliser Hotel, Calgary, from which thousands of invitations have been issued.

W. A. Teskey - Lomond and Travers

LOCALETS

Another attempt is being made to secure a flow of water by boring a hole just east of Johnny Holo's fence on 2nd. avenue west.

W. C. Lane, the bailiff, was up from Taber this week, stating that crops from Retlaw south were a little better than ours. A little lad in Taber was killed by lightning Saturday night. W. C. has developed into an irrigation enthusiast, and predicts great doings down around Vauxhall when the water gets down that far.

L. E. Whipple drove down to Redcliffe on Monday to look up a grading contract on the C. N. R., but found affairs already congested.

Chas. Delnaey and Orbie Baker came in yesterday after a year's stay overseas with the Canadian forces. Chas. Cochran is expected home this week. Bill Keeler was also among the Lomond boys to return home this week, coming in from Taber.

The Lomond post office is being moved to the Spiller building in the north of town, which is now undergoing a series of repairs. The telephone exchange will also be established there.

Miss Ruth Elliot came in on last Thursday's train from the Old Country to visit her brother and while here will be at liberty to resume her professional duties of maternity nursing.

T. A. Kennedy and Dan Palmer went to Calgary Thursday for the fair.

Never bear more than one kind of trouble at a time. Some people bear three—all they have had, all they have now, and all they expect to have.

The Next Big Event!

LOMOND FAIR

July 31st. - 1919
